

Magic Flexible LED

----To Make Your Creative & Magic LED World

Meiyad[®]

美亞迪

Foreword

In order to show you our magic sign very well , we make this presentation.

Shenzhen Meiyad Optoelectronics Co, Ltd. was founded in 2008. Meiyad is a national high-tech enterprise which focuses on R&D, manufacturing, retail and serving of LED display. We have our own operation center and manufacturing base in Shenzhen, Hu Bei, Guang Xi, have already exported to more than 100 countries in the world, with many various successful projects.

Our products are widely used in indoor and outdoor commercial Meida, sports venues, stage performances, special-shape creativity, etc. We also provide LED display integrated solutions. With the development of technology and manufacture workmanship, we have made many classical cases in the international market, and become one of the representative of “Made in China” to “Create in China” in international LED product applications.

What is Magic Flexible?

Meiyad Magic Flexible modules have perfect impacts on the market after technical innovation and constantly upgrade:

- Two invention patents;
- Flexible, thin and light-weight, suitable for different degree bending effects;
- Strong magnetic installation way, available for front maintenance service;
- Best resolution in flexible field -- P2;
- P4 outdoor flexible led modules has been launched.

Why is Magic Flexible?

- ▶ **Ultra-flexible**
It's available for customized design, such like rolling, bending and swing. based on customer's demands.
- ▶ **Ultra-thin**
Adopting special material and advanced technology, supre thin and light, weight of each module is just 85g.
- ▶ **Non-cabinet**
Reducing weight of LED display and cost, can be any shape design as customer required.
- ▶ **Easy Assemble**
Installed by strong magnets directly.
- ▶ **Quality Assurance**
Over 10000 times Testing of bending, ensure quality for end-user.

New Product: P4 Outdoor Flexible LED Screen

In Meiyad Magic flexible family, new member P4 outdoor has already been launched, After much experimenting, P4 outdoor flexible modules start mass production.

P4 outdoor flexible module
waterproof testing

► Ultra-flexible, for various design and effect

► Ultra-thin

each module only 0.3kg

total only 13.6mm thickness

▶ Non-cabinet, save cost, in any shape

► Easy installation, strong magnet, available for front service 美亞迪

► Application

Suitable for irregular construction, such as the club, stage, studio, super market, shopping mall, stadium, concert, amusement park, sight seeing area, real estate, airport etc.
